Dear Parents

Greetings!

Subject: Prevention from Dengue & relaxation in uniform code

Dear Parents

We hope this message finds you well. As you may be aware, there has been a significant increase in dengue cases in our city and surrounding areas. To ensure the health and safety of our students, we would like to bring this to your attention and suggest some precautionary measures.

Dengue is a mosquito-borne disease, and prevention is key. Here are some steps you can take:

1. Eliminate standing water around your home to prevent mosquito breeding.
2. Use mosquito repellents and nets.
3. Wear protective clothing to ensure maximum coverage of body.
4. Apply insect repellent to exposed skin and clothing.

The school is already been following weekly fumigation schedule. In spite of that, we are receiving concerns from the parents regarding mosquito bites during transition time. In light of this, we are temporarily relaxing our school's dress code to allow students to wear **blue denim pants** to school, ensuring their legs are covered. This precautionary measure will help minimize exposure to mosquito bites. This relaxation is applicable till further notice.

Additionally, we recommend that you:

- Consult a doctor immediately if your child shows symptoms like fever, headache or joint pain.
- Keep your child at home if they are unwell.

Thank you for your cooperation and support.

Best regards
